A FREE LECTURE ON PIONEER LIFE IN THE FAR WEST .- We presume very many of our citizens will be interested to hear something of the condition and prospects of the great West. As the home of the American pioneer and immigrant, as the field of vast mineral wealth, and development, as the only spot in our country, exposed to Indian outrages and deprelations, the public attention is constantly drawn to our great Northwestern territory. The Rev. J. C. Fitman, of Carbon, Wyoming territory, is in our city, and proposes to address our people on this ineresting subject to-morrow (Thursday) evening, in the brick building adjoining

erate people, to erect and support a house f worship. He comes to us with strong and hearty commendation from well known contributions for this object, when he shall have presented the claims of this have already been sold, an indication that the sales will be unusually large. A glance at the list of lectures already anaperior to any lecture course with which we have been favored in Titusville, and it appreciate the efforts of the Association who have undertaken to provide this en-

ness of Mr. W. H. Abbott, noticed yesterday, has, we regret to say, assumed a more serious phase, and his physicians last evening expressed but feeble hopes of his recovery. The necessity for his securing perfect quiet has induced the School Union School to-day, and the building Titusville could be more illy spared than Mr. Abbott, and the public generally seem to share the anxiety of his family and friends. We hope for a more favorable port of his condition to-morrow.
